LEAK CREDIT GUIDELINES

Residential customers may be eligible for a credit on wastewater charges on water lost through a system leak or a damaged pool, subject to certain conditions. Customers may receive a credit no more than once annually and are required to submit documentation of repairs. The credit, if awarded, is calculated from the difference between the subject period and 150% of the use for the same period during the previous year. Non-residential users may qualify for a credit for catastrophic leaks, in excess of 400% of use during the subject period the previous year.
